Area 2: INTERNAL ACTIVITIES	
Extra-curricular opportunities	£4177
Internal sports competitions	£1890
Top up swimming sessions	-
Active travel	-
Equipment and resources	£1170
Membership fees	-
Educational platforms and resources	£328
Area 3: EXTERNAL ACTIVITIES	
School games network events	£910
Other inter-school sports competitions	£815
Eternal coaching staff	£2640
Total spend	£17,040

PART 2: Opportunities, Impact & Sustainability

OPPORTUNITIES	
Has your school targeted providing / improving opportunities for pupils with SEND or long-term medical conditions?	No – these children have the same opportunities and access as all other children.
Has your school targeted increasing girls' access to PE or extra-curricular sport?	No – our girls have equal access to PE and extra-curricular sport,
Has your school targeted providing / improving opportunities for disadvantaged pupils?	No – our disadvantaged pupils have the same opportunities and access as all our other children.
IMPACTS & IMPROVEMENTS	
What impact has this funding had on:	
Increasing staff confidence, knowledge and skills in teaching PE / sport?	PE lead attended tennis CPD as a personally identified area of CPD. CPD took place at Retford Oaks, led by David, an LTA (Lawn Tennis Association) instructor.
Increasing engagement of all pupils in regular physical activity / sport?	Football team/club was pushed this year. A member of staff took over from PE lead and lead the football team/club in the cup/league games as set out by the Bassetlaw Schools Football League. The PE lead noticed a lack of opportunities for children in EYFS. In autumn term 2, children in EYFS had a full half term of balance bike sessions. An external coach brought bikes and helmets and guided the children through the sessions as part of their physical provision/education.
Raising the profile of PE & sport across school to support whole-school improvement?	Raising the profile of PE and sport has been a priority this year. The PE lead and headteacher worked closely to ensure that all children access a wide variety of sports events across the year. Implementation of House teams during the previous year, raised the profile of PE/sport, particularly for sports day purposes. North

	Wheatley hosted a sports day, where children can compete to gain points for their House team. Children from FS1 – Y6 could earn points in their age group category/activity. Points were totaled and the House Cup was awarded to the highest total.
Offering a broader and more equal experience of a range of sports / activities to all pupils?	Through enrichment days, all children have accessed a broader and more varied list of sports than typical sports taught in the primary school. The PE lead and PE provider ensured children had an enrichment WOW day at least once every term. During the academic year 25/26 children experienced: - Glow in the dark dodgeball (Sept 2025) - POUND workshop (Oct 2025) - Fencing (Nov 2025) - Curling (Jan 2026) - Lacrosse (Mar 2026) - Archery (Jun 2026)
Increasing participation in competitive sport?	Each year group had opportunity to take part in a remote competition. Curling was the focus this academic year. Organized by the PE provider, year groups across the county participated in the curling competition from the comfort of their own school. Points were then totalled, once all schools had taken part, results were emailed out. In April 2025, a group of 6 swimmers from North Wheatley attended swimming qualifiers in Repton. North Wheatley entered 2 events – 4x25m mixed relay and 4x25m freestyle. In both events, North Wheatley came 1st in the small school's category, qualifying for the National Swimming Championship final in Ponds Forge. In June 2026, the PE lead, volunteer coach and

	children attended the finals in Sheffield and swam against small schools from up and down the country.
PE attainment?	Academic year 25/26 reports indicate: In FS1, 7 pupils out of 11 achieved securely at in both physical provision and physical education. In FS2, all 8 children left EYFS with expected ELG in physical provision and physical education. In Y1, out of 17 pupils, 16 children working at just at/securely at. In Y2, out of 13 children, all 13 were working at just at or securely at. In Y3/4, 23 pupils out of 28 were working at just at/securely at/above. In Y4/5, 25 pupils out of 27 were working at just at/securely at/above. In Y6, all 17 pupils were working at just at/securely at/above.
Increasing teacher confidence & competence?	Complete PE, a PE subscription service, was available for all staff. The service offers a wide variety of resources to support with the teaching of PE/sport. Resources included detailed lesson plans and structure to provide all staff with confidence and competence of delivery of a range of sports. Many units offered an appendix area of knowledge organizers, challenge cards and suggestions of adaptive/inclusive planning for SEND children.

Pupil participation in extra-curricular activities?	During academic year of 25/26 children were offered a range of extra-curricular clubs. - Dance/yoga club for EYFS/KS1 children - Football club for KS2 children/football team participants - Rugby club - Netball club All year round, the PE provider hosted a club each Friday – mutli-skills, tennis, football and gymnastics were offered throughout the year.
Ensuring that improvements made are sustainable?	Football club/teams will continue to be available for children in KS2. We will look ahead to expand into entering the boys league again and the separate girls league rather than 1 mixed team. Extra-curricular clubs to be provided by staff where possible, ensuring children from each phase have opportunity to attend. During academic year 25/26, North Wheatley has made PE/sport a focus of the school and ensuring our funding is spent to the best of our ability on a broad and balanced PE curriculum, along with varied enrichment opportunities of different sports and competitive aspects.
Our school PE & Sport premium spending has achieved:	
• An increase in pupil attainment in PE • An increase in pupil levels of physical activity • An increase in pupils participating in school sport • An increase in pupils participating in extra-curricular activities • An increase in staff training and CPD • An increase in staff participating in extra-curricular activities and school sports competitions	
SWIMMING & WATER SAFETY	

What % of pupils in Y6 (July 2025) can swim competently, confidently and proficiently over 25m?	100%
What % of pupils in Y6 (July 2025) can use a range of strokes effectively?	100%
What % of pupils in Y6 (July 2025) can perform safe self-rescue in different water-based situations?	100%
Our sports funding has no impact on our swimming and water safety attainment as we do not use it for top-up lessons above the national curriculum.
